# About us

**AdaptiveComms**  
Successful in Communication

AdaptiveComms is an independent provider of fully managed, integrated and combined communication solutions.

Delivering and managing your business communications is our top most priority. We aim to deliver the **best technologies and service** in the communications industry.

By taking a holistic approach to your business communications, we use our industry knowledge and extensive market experience to provide an individual solution that incorporates the ideal technologies for each of your channels of communication.

Providing the ideal solution at the right price however is only the first step. At AdaptiveComms we believe in providing a **bespoke service** throughout the life of the contract to all of our customers.

Our ethos is to always provide the correct solution first time and every time, followed through with high quality delivery and second to none after sales care.

We provide to all of our customers;

- **Individually tailored solutions**
- **'Try before you buy' Seminars**
- **Fully managed implementation and delivery**
- **Personal Account Manager**
- **Regular account reviews and customer visits**
- **First line Technical support**
- **24/7 Customer Service support**
- **One named point of contact for all enquiries**

AdaptiveComms are dedicated to providing **exemplary customer service and support** to you. Very few can offer the level of service and depth of knowledge we can.

AdaptiveComms offers **Partnership opportunities** for businesses looking to fully meet their customers requirements, earning them fantastic commissions. To find out more about easily becoming a Partner with AdaptiveComms, simply call **0800 634 8889**.

**We have the solution for YOU**
